

cb Reporting

Features & Benefits:

1. **Pre-built reports...** access common reports to identify patterns and trends in their programs. Each report has interactive filters which users can customize to query the data per their needs.
2. **Customize reports ...** Make a copy of pre-built reports or build reports from scratch in order to meet your specific organizational needs. Filter selections, visualizations will remain as is
3. **Customize visualizations ...** Change how charts and reports are presented from many different visualization options, including maps!
4. **Close-to-real-time** availability of data in reporting application
5. **Presentation ready export** to excel, ppt, other formats for external stakeholders
